

Company X Employee Knowledge Base

Version: 1.0

Dataset type: fictional synthetic company data for Document Q&A testing

Employee count: 100

Important privacy note: Company X, the people, emails, salaries, dates of birth, projects, and policies in this document are fully fictional. The data is intended for testing a document Q&A chatbot and should not be treated as real personal information.

Company Overview

Company X is a mid-sized B2B software company with 100 employees across product, engineering, data, revenue, finance, people operations, IT, and operations. The company sells a workflow intelligence platform for operations teams. The main business goals this year are improving customer onboarding, reducing manual internal processes, improving security posture, and increasing enterprise revenue.

Company X works in a hybrid model. Employees are distributed across New York HQ, Rabat Office, London Office, Berlin Office, Remote US, and Remote EMEA. Standard working hours are 9:00 to 17:30 local time, with engineering support coverage rotating weekly.

Department Summary

Department	Employees	Typical posts
Executive	5	Chief Executive Officer, Chief Technology Officer, Chief Revenue Officer, Chief Financial Officer, Chief Operating Officer
Engineering	18	Backend Engineer, Frontend Engineer, Full Stack Engineer, Platform Engineer, QA Automation Engineer, Engineering Manager
Product	8	Product Manager, Product Operations Manager, Technical Product Manager, Growth Product Manager
Design	7	Product Designer, UX Researcher, Design Systems Designer, Content Designer
Data and AI	10	Data Analyst, Analytics Engineer, Machine Learning Engineer, Data Scientist, AI Product Specialist
Sales	12	Account Executive, Sales Development Representative, Solutions Consultant, Enterprise Account Executive
Customer Success	10	Customer Success Manager, Implementation Specialist, Support Lead, Renewals Manager
Marketing	8	Content Marketing Manager, Demand Generation Manager, Product Marketing Manager, Events Manager
Finance	6	Financial Analyst, Accounting Manager, Revenue Operations Analyst, Payroll Specialist
People Operations	6	People Operations Partner, Recruiter, Learning and Development Lead, HR Generalist
IT and Security	5	IT Support Specialist, Security Engineer, Systems Administrator, Compliance Analyst
Operations	5	Operations Manager, Procurement Specialist, Office Coordinator, Business Operations Analyst

Project Portfolio

Code	Project	Owner	Status	Goal
---	---	---	---	---
PX-Atlas	Atlas Customer Portal	Product	In build	Reduce support tickets by 18 percent and improve renewal readiness.
PX-Nova	Nova Mobile App	Engineering	Beta	Launch iOS and Android beta with offline-first task capture.
PX-Orion	Orion Data Lake	Data and AI	Discovery	Create trusted weekly executive dashboards.
PX-Mercury	Mercury Billing Automation	Finance	In build	Cut manual finance operations by 30 percent.
PX-Horizon	Horizon Security Program	IT and Security	Active	Prepare for SOC 2 Type II audit.
PX-Summit	Summit Sales Enablement	Sales	Active	Increase enterprise win rate by 10 percent.
PX-Pulse	Pulse Employee Experience	People Operations	Planning	Improve engagement score from 72 to 80.
PX-Launchpad	Launchpad Onboarding	Customer Success	In build	Reduce time to first value from 21 days to 12 days.
PX-Lumen	Lumen Brand Refresh	Marketing	Active	Increase qualified inbound pipeline by 15 percent.
PX-Forge	Forge Internal Tools	Operations	Maintenance	Make internal requests traceable and measurable.

Project Details

PX-Atlas - Atlas Customer Portal

- Owner department: Product
- Status: In build
- Summary: Self-service customer portal for contracts, support cases, and billing visibility.
- Business goal: Reduce support tickets by 18 percent and improve renewal readiness.

PX-Nova - Nova Mobile App

- Owner department: Engineering
- Status: Beta
- Summary: Mobile companion app for field employees and customer success managers.
- Business goal: Launch iOS and Android beta with offline-first task capture.

PX-Orion - Orion Data Lake

- Owner department: Data and AI
- Status: Discovery
- Summary: Unified analytics layer for sales, product usage, finance, and support data.
- Business goal: Create trusted weekly executive dashboards.

PX-Mercury - Mercury Billing Automation

- Owner department: Finance
- Status: In build
- Summary: Automates invoice validation, renewal notices, and revenue recognition checks.
- Business goal: Cut manual finance operations by 30 percent.

PX-Horizon - Horizon Security Program

- Owner department: IT and Security
- Status: Active
- Summary: Company-wide security hardening, device compliance, and access review program.
- Business goal: Prepare for SOC 2 Type II audit.

PX-Summit - Summit Sales Enablement

- Owner department: Sales
- Status: Active
- Summary: Playbooks, demo assets, and account intelligence for enterprise sales teams.
- Business goal: Increase enterprise win rate by 10 percent.

PX-Pulse - Pulse Employee Experience

- Owner department: People Operations
- Status: Planning
- Summary: Employee engagement surveys, career ladders, and manager enablement program.
- Business goal: Improve engagement score from 72 to 80.

PX-Launchpad - Launchpad Onboarding

- Owner department: Customer Success
- Status: In build
- Summary: Repeatable customer onboarding journey with templates, health scores, and milestones.
- Business goal: Reduce time to first value from 21 days to 12 days.

PX-Lumen - Lumen Brand Refresh

- Owner department: Marketing
- Status: Active
- Summary: Refreshes brand language, product pages, event content, and case studies.
- Business goal: Increase qualified inbound pipeline by 15 percent.

PX-Forge - Forge Internal Tools

- Owner department: Operations
- Status: Maintenance
- Summary: Internal workflow tools for approvals, procurement, travel, and equipment requests.
- Business goal: Make internal requests traceable and measurable.

Company Policies and Operating Notes

- Compensation is reviewed every April. Salary changes depend on role scope, location band,

performance, and company budget.

- Employees should update project status notes every Friday before 15:00 local time.
- Customer-facing teams must log account risks in the CRM within one business day.
- Engineering teams use two-week sprints. Pull requests should be reviewed within one business day.
- Security training is mandatory every quarter. All employees must use multi-factor authentication.
- Paid time off requires manager approval at least five working days in advance when possible.
- Contractors can access only the systems required for their assigned project.
- Managers should hold one-on-one meetings at least twice per month.
- Support escalations are handled by Customer Success first, then Engineering if a product defect is confirmed.
- The company prefers async updates for status, blockers, risks, and decision logs.
